Introduction

Our earth was created as a clean planet and people lived healthier and longer. Gradually, earth become contaminates and this affected the lives of its inhabitants. Industrialization was revolution in economic terms but, it was accompanied by unwanted unwanted by-productions like water and air pollution.

We have been gifted with beautiful bodies. but it is our responsibility to maintain them. Our lifestyle often become hindrance in leading a healthy life.

Dust, pollution, water contamination etc. produce toxins in our body. The food we eat is adulterated as chemical fertilizers are used in the cultivation of crops. The colours, spices and chemicals in the junk food we eat also cause the build up of toxins in our bodies. As toxins get deposited in different parts of our bodies, we grow weaker unless detoxification take place

Tumours grow in our bodies. Cancer, diabetes, asthma and other ailments can wreak havoc with our lives.

Normally sweating is a detoxification process, but today people lead busy lives in the comfort of home and office and seldom find time for exerting energy. There are about 16 lac pores on human body, but they blocked because of pollution. This can create pressure on the kidneys for detoxification.

O3vit bathing concept has on offer a solution through steam baths. Branded O3vit, these steam baths make your sweat which can boost your immune system and increase your metabolism. They can provide relief from sinus, joint pains, asthma, cold etc.

Hydromassage Benefit

The actions of the O3vit Hydro massage bath have extremely beneficial effects on many aspects of your health.

Beyond relaxing and giving energy, improving health both physically and mentally, there are indications that they help to combat type 2 diabetes since they cause a reduction in blood sugar, they also clear the airways with a decongestant effect through to the vapours and the stimulation of the hydro massage, they improve peripheral circulation and ease joint pain. O3vit Hydro massage bath sessions also help to treat insomnia.

Air Bubble Massage Benefit

Orion Air massage is not just a massage of the muscles and tissues of the body. Due to the fact that air bubbles simultaneously affect many nerve endings and receptors, there is an increase in blood flow, improvement in peripheral circulation, tissues and organs are being saturated with oxygen. Swellings are reduced, skin is thoroughly moisturized and its vitality is restored. Furthermore, regular treatments of air bubble massage has a positive effect on fighting with cellulite.

Orion Air massage will help relieve some of the painful sensations, neurotic state, relax muscles and become an active tool in the fight against insomnia, normalization of blood circulation.

Chromatherapy Benefit

The Orion chromatherapy bathtub's lighting system infuses your bath water with a range of healing hues, spanning from warm (stimulating) to cool (calming). Soak up the full rotating spectrum, or select the one that best matches your state of mind at a given moment. Blue is for relaxation, and white is for purification of the spirit. Aquamarine supports balance, while green calms the mind. Orange enhances creativity, red creates stimulation, and purple promotes tranquility.

So when you're ready to color your world calm, simply turn off your bathroom lights and open yourself up to the unique and restorative experience of a colorful Orion chromatherapy bath.
